NEWS FROM BOYS IN SERVICE

This letter was written by Max G. Noyes to his aunt, Della Noyes. Max is the son of George L. Noyes of Norway and lived in Fryeburg until a few years ago when he came to Norway and made his home with his father and aunt, Della Noyes.

Camp Morrison, Virginia.
March 11, 1918,

My Dear Aunt:

Received your most welcome letter, and it seems great to get the home news.

I like the army life very much and feel at last I have found something that I will stick to and make good. I never was satisfied in the Navy, and I thank God I got out.

The men in the Aviation Corps are a large percentage college graduates, and a finer lot of fellows couldn't be found. I am obeying orders, keeping a clean personal appearance and pleasing my officers and living a God fearing life and after all is said and done that is all any one can do.

I have taken out $10,000 life insurance.

We are waiting here for transports to take us across, do not know when we will sail, but expect it will be soon.

I hated to leave Omaha, as I had many fine friends. I used to go out to dinner every Sunday and once a week some lady would give us boys a Theatre party. I was over to Frank True's house twice.

Have seen some great places and heard some wonderful music since I enlisted, Aunt Della. Though I have had some hard knocks and there have been times when it was pretty hard sleding, after all, it helps one to be less selfish.

We have been sleeping on wooden cots but now are on iron beds and can sleep very comfortably. I am very glad my overcoat was sent across for I know what it is to suffer from the cold,—35 degrees below zero and sleeping in a tent is no cinch. Many mornings in Omaha I awoke with snow on my cot.

It seems more like June than it does like March here in Virginia. I was out walking one day and picked a bunch of violets and jonquils. Cherry trees and peach trees are in bloom and the grass is really green.

This Camp is situated on the James River where it flows into the Chesapeake Bay and we have plenty of oysters and fresh fish. There is an orchestra composed of a violin, banjo, guitar and mandolin playing in the barracks and it certainly is pretty.

The army food is wholesome and we get plenty of it, but it is not like home cooking.

When I left the Navy some people at home thought I was a slacker, but I am putting in my best licks for Old Glory now and can never be called a coward, though I may never be a hero.

I am quarantined for measles and have had the mumps for 10 days.

Tell the boys if you see them I will write them all in time. I would give anything in the world to see you and father before I sail, but as that is impossible, I can only write. Some of the boys have taken French leave, but until I can leave honorably, I shall always be found at my post with the colors. All my love. MAX GORDON NOYES.

Letter to Marion P. Bradbury of Norway from her brother, Henry B. Bradbury Co. D 103d U. S. Infantry. Priv. Bradbury is the son of Pearl G. Bradbury of this town and served with Co. D on the border. He went out with the same company in April and remained during the summer until transferred at Westfield, Mass.

March 4, 1918.

Dear Sister:

How is everything in Norway? I have not heard from you for a long time.

Why don't you send me the Advertiser and Boston papers once in a while. Well, I cannot think of much to write that is much of any use to you. We have been in a place up within a little while where we have been digging trenches. We had to go out as soon as it was dark and dig until it was somewhere between ten o'clock at night and one or two in the morning, but we did not have anything to do in the daytime. We were in a place where the shells could hit us. One man got killed and another one got injured. Since we left the other place where we have been stationed since we landed in France we have been in dugouts under the ground. We have been in one dugout that we could put in about 2000 men. We have slept and eaten in there. We have also seen aeroplane fights. We have also seen an awful lot of big shells that the Germans have sent over at us and they have not gone off. A lot of fellows have been picking up a lot of the Bosche grenades and such alike and they have gone off in their hand or some of them have gone off.

The Bosche have done everything to hurt the people's property since the beginning of the war. They even went to work and cut down their apple orchards and poisoned water and all such things as that. The houses in one big city not far from here are all torn down. The houses are all made out of stone or something like cement and they are gone flat to the ground and then some of them are stove in and some of them were not touched at all, but what people are living in them. Well, I will write more some other time as it is my bedtime I will quit and go to bed.

PVT. HENRY V. BRADBURY.
Co. D 103 U. S. Inf., American Expeditionary Forces.

The following letter was written by Corp. Addison Lee Holt, son of Mr. and Mrs. A. C. Holt of Elm street, Bethel, a member of Co. D 103 U. S. Infantry, American Expeditionary Forces, now in France. He is also a brother of Mrs. Samuel F. Ray of North Waterford.

Dear Folks:

Will write you a line tonight as I have not had a chance for some time. I have been under shell fire and machine gun fire but was lucky as were all the rest. I am back a little way now resting.

It is fun to hear the machine guns. They sound like corn popping.

The bullets sing when they go over our head and at first we would keep ducking, but we soon got used to it. We must have given the Germans all they were looking for when we were in the front line, for several mornings after we heard them playing their bugle and the French officers said they were playing for their dead.

One of the prisoners taken lately said they were laying for that company to come back again so I imagine we shall have some hot times when we get back. However, I don't fear any German that ever walked, and I have not forgotten how to shoot so if I get my eye on one they may as well order the flowers. I have seen more aeroplane fights than I ever read about when I was in the states, and I saw one machine come down end over end to the ground.

I have received several boxes from you folks at home and we boys get quite a lot of tobacco from different people. It helps out. The people don't know when they put a little box of candy or tobacco in the mail for us fellows how it makes us feel when we get it.

Tell Adelaide to send me some more fudge and chocolate, and wish you would send another fruit cake. That one that Addie sent long ago was fine when it got here, and just as fresh as though it had just been baked.

I don't want you to worry any about me for I am all right and feeling fine and shall come through with a flourish that will surprise the natives.

Hope you folks are as well as when you last wrote. Write often. LEE.

Norway Corporation Meeting

It required only twenty-five minutes to transact the Norway Village Corporation business including the raising of $8,500 in Norway Opera House, Tuesday evening, April 9. The meeting was well attended.

After the reading of the warrant by Clerk Stuart W. Goodwin, Henry B. Foster was chosen moderator and Stuart W. Goodwin, clerk. The board of Assessors, engineers, treasurer, collector and fire police were chosen on one ballot, the vote was light as no contest developed. The following were elected for the ensuing year:

Corporation Assessors—Geo. F. Hathaway, Raymond H. Eastman, Harold A. Anderson.
Treasurer—E. N. Swett.
Tax Collector—Charles H. Pike.
Engineers—Chief Engineer, T. P. Richardson; 1st Asst Engineer, F. H. Hurd; 2nd Asst Engineer, L. H. Cushman.
Fire Police—S. G. Hatch, Guy Estes, Geo. Hancock, E. C. Libby, E. C. Winslow, F. A. Hall.

By vote of the Corporation poll taxes for 1918 are made payable May 1 and all other taxes for this year are due Nov. 1. Six percent. interest will be charged after January 1, 1919. The 1918 taxes against Albert F. Canwell and the heirs of William S. Pratt were abated. The article relative to abating the taxes assessed against Hattie Small was passed over.

It was voted to install a light on School street but left the question of locating a light on lower Main street at a point near the Everett E. Whitman place with the assessors. An article calling for a light on Maple street between the residence of E. F. Hayden and Pleasant street was passed over.

There was no open opposition to the continuance of the night police service and $600 was raised for that purpose. It was voted to purchase bonds required of the Treasurer and Collector, also $4,000 was raised to meet the usual Corporation expenses.

Albert J. Stearns ably represented the residents of the falls in their request for a change of location for the hydrant, corner of Main and Fair streets, which in winter is practically useless because of an overflow from the drinking fountain close by. The vote was carried to make the necessary change under the direction of the Assessors and Engineers. Seventy-five dollars was raised for that purpose.

There was no opposition to raising $3,200 with $625 interest for the retirement of sewer bonds maturing in 1918.

	1918	1917
Police services	$ 600	$ 600
Corporation Expenses	4,000	4,800
Retirement sewer bonds	3,200	3,200

NOTE FROM THE TREASURY DEPARTMENT

The village of Norway snuggled away in the hills of Oxford County gained Nation-wide fame through magazine and newspaper articles, because it was probably the first town of its size in the country to adopt a real constructive war program for saving and serving. In the Liberty Loan campaign, in the Red Cross crusade, in food conservation, in war gardening; in fact in everything that has made for help to the government in the Nation's crisis, Norway was one of the first to respond. As one writer said in a recent magazine story, "the people in Norway are no different than the people in thousands of other American villages." The minute men and women of the hustling Maine town however "do things" and they started their machinery on the high speed at once. Norway is not alone famous in home war activities. The town has given many of its sons who are now in France ready to make the "supreme sacrifice" if necessary.

Now come the school children following closely the example set by their elders, and the formal report of True C. Morrill, Superintendent of Schools in this typical American town shows that 430 pupils in 16 schools and grades of the town have contributed a total of $2,823.64 this year to war activities or an average of $6.57 to a student.

Figures are usually dry, but the showing of the Norway schools is so exceptional that everyone who is patriotic and especially scholars in other Main schools, and their parents and teachers must be interested in the table (printed in Advertiser, April 5) as showing what the children of one town can do when they are dead in earnest as these Norway children are. The per capita investment in War Savings and Thrift stamps alone of these children is much larger than the entire juvenile and adult populations of many other Maine towns and cities show being a trifle over $1.40 to date.

A public reception to Rev. and Mrs. Melbourne O. Baltzer formerly of Mexico, will be held in the Congregational church parlors Wednesday evening, April 17, under the auspices of the Ladies' Circle. Rev. Mr. Baltzer enters upon his duties as pastor of the Second Congregational Church Sunday and comes to Norway highly recommended as a convincing preacher, a tireless worker for the improvement of the community and possessing a personality which wins friends wherever he is known.

Mrs. H. L. Bartlet, chairman of the Circle, has appointed the following committees for that evening.

Reception—Mr. and Mrs. H. L. Horne, Mr. and Mrs. Eugene N. Swett.
Ushers—Philip F. Stone, Mildred P. Holmes.
Room Com.—Philip F. Stone, Mrs. John F. Swain, Mrs. Llewellyn H. Cushman.

Dr. G. M. Whibley: "I've run a Reo touring car three seasons, some 18,000 miles and had it thoroughly overhauled and repaired this winter at a cost of $37.13."

William Moody of Deering street has purchased the stock of George W. Smith in the Allen blacksmith shop and has gone into the blacksmithing business.

A card recently received from George A. Sanderson stated that he had joined the Expeditionary Forces and was on his way across the water. He enlisted in the Medical Dept. and was stationed at Fort Ethan Allen, Vt., going from there to Fort Oglethorpe, Ga., where he has remained to the time of his sailing.

Floyd Haskell and Roy Perham of Bryant Pond returned Monday to Spartansburg, S. C., after a fifteen day furlough spent with their parents. Beryl Young and Lois Wing accompanied them to Portland, returning Tuesday.

A large number attended the dance in the Grange Hall Tuesday evening. The prize for the lucky number waltz was given to Mrs. Frank Richardson and Douglass Farrar.

Merrit Welch: "I can get up any time in the night I want to. If I make up my mind when I go to bed to get up at 2 o'clock I do it. It won't vary five minutes. I never set the alarm and when they set the clock ahead an hour I got up at 5 o'clock just the same."

We can do that job of printing if you only say so. Don't wait until the last sheet is used. Give us a little time. Calls by telephone promptly answered.

Charles Cummings: "I'm happy to say that my roosters are patriotic, and are crowing according to the new time."

Nothing has been done to stage the Truman-Soldier Adam alias the "Unknown" wrestling bout which was to have been pulled off in the Opera House this Thursday evening. Reports have it that Homer Truman is in the Lewiston hospital, but they are unfounded as the champion is in Norway waiting for the "Unknown" to appear. Arrangements were made on the Lewiston end and the local sports have nothing to do with the slip-up.

Mrs. William F. Jones accompanied a party of young ladies to the Bates Athletic meet at Lewiston Saturday morning returning Sunday evening. Among those who attended were Laurestine Foster, Mary Jones, Madeline Hayden and Marietta Nichols.

Grace L. Bennett

Grace L. Bennett passed away at her home on Maple street Monday night about 11 o'clock after suffering several years with a disease which compelled her to live as a shut-in for a long period. Her age was 37 years, 3 months and 23 days.

She was born in North Norway Dec. 16, 1880 and was one of twins, the brother living only ten months. Her parents were the late Eugene L. and Mary J. (Richardson) Bennett. The family moved to the village twenty-six years ago, soon after the death of the father and she entered the intermediate school, graduating from Norway High in 1900, standing second in rank and secretary of the class. Owing to poor health, practically the last year's work was taken at home. She attended the graduation but was unable to give her class part.

After her health improved she served a short apprenticeship in a millinery store then changed to a clerkship at the Hobbs Variety Store. Her sterling business qualities soon placed her as head clerk and the buying for the store was left to her judgement.

After eight years with this firm she was forced to give up the position for treatment which failed to give only temporary relief. Her dainty needlework has been admired by all, and the table at the last Universalist Circle fair displaying her handiwork was a feature which attracted much attention and patronage. Since falling to the floor from a wheel chair ten weeks ago, she gradually failed, not having the strength to recover from the shock, but would not give up until the last afternoon before the end.

Miss Bennett is survived by her mother, who has given every attention and performed acts of tenderness which is only possible from a true parent. She belonged to the Norway Grange until failing health caused her to withdraw and was a member of the Universalist Church.

Services will be held in the home, Friday afternoon at 2 o'clock, conducted by her pastor, Rev. C. G. Miller. Interment in Pine Grove Cemetery.

Sending Parcels to the Soldiers

On and after April 1, 1918, parcels for members and individuals connected with the American Expeditionary Forces in Europe shall not be accepted for mailing or dispatched unless they contain such articles only as are being sent at the written request of the addressee, approved by his regimental or higher commander or an executive officer of the organization with which he is connected.

There has been more or les misunderstanding in regard to the latter portion of this order. The request must be "approved by a higher officer."

Norway Will Go Over the Top

The Liberty loan campaign in Norway is just gaining momentum for one grand land slide before the time limit is reached. Howard D. Smith, cashier of Norway National Bank, with several assistants, are canvassing the business section with splendid results.

The ladies in town under the auspices of the Maine Federation are busy along this line and will assist in every way to boost the loan beyond the $48,000 requirement. Norway Boy Scouts are to enter the campaign soon and their work will prove invaluable. Cashier Smith has placed about $20,000 to the credit of the town to date.

The Red Cross Party which was to have been held this week has been postponed to next Tuesday evening, April 16, at the Opera House. A good sum was realized from the last party and a like or even greater amount is hoped for as it is needed in the Red Cross work.

The Y. P. C. U. of the Universalist church will have a social at Concert Hall, Friday evening, for the benefit of the piano fund. Table will be provided on the stage for various games. Lloyd Fletcher and Adeline Decoster have been appointed the committee on music for the evening. The social last week netted $16 which brings the amount due on the piano to some less than $50.

Mrs. Harriet Porter went to Rumford, Tuesday for a few days. Mr. Porter opens his boot and shoe store there this week.

The Home Missionary society of the Methodist church met Thursday afternoon at the home of Mrs. Carrie Muirhead.

The funeral of John P. Cullinan was held Sunday afternoon at 2 o'clock at his late residence on Main street and was largely attended. Norway Lodge, No. 16 I. O. O. F. attended in a body and conducted services. There was a profusion of flowers. Rev. H. L. Nichols officiated and interment was at Pine Grove cemetery. The bearers were George L. Curtis A. L. F. Pike, L. J. Brooks and H. B. Foster.

Mrs. George A. Brooks entertained the Barton Reading Club, Thursday afternoon. The program included the study of Winston Churchill.

Judge Jones and Frank Kimball have arrived in Savannah, Ga., going by boat from Boston. Lester Ashton so reports.

Mrs. John Horne of Portland who recently broke her arm, is now improving, although she has suffered severely and is ill with a severe attack of grip. Mrs Wade Davis, daughter of Mr. and Mrs. John Horne, and little son, Wade Davis, Jr., are leaving sometime next month to visit at Altoona, Penn.

SOUTH PARIS

Service League Sale

Nearly one hundred and fifty dollars was realized from the Service League sale held Friday afternoon at Grand Army hall, under the charge of Mrs. Walter L. Gray, chairman of the League.

On the stage the Girls' Patriotic League held full sway. A large cannon, bedecked with the Stars and Stripes, was located on a pedestal and surrounded by mysterious packages which were shot through the cannon's mouth for a small sum. Red, white and blue bunting was profusely draped about this booth and Marion Clark, dressed as Uncle Sam and Doris Cole as Statue of Liberty were striking figures. Emma West and Bessie Campbell assisted in the sale of hot house flowers. Dorris Kerr and Marion Simpson represented French maids.

Mrs. J. J. Merrill was chairman of the food table which conformed in every particular to war usage. The apron table in charge of Mrs. Harry D. Cole proved an attractive feature with substantial returns from a large patronage. Many articles had been contributed by the Sunshine Club who are interested in this work.

Ruth Bolster was chairman of the candy table attractively displayed a good assortment made largely from sugar substitutes.

The receipts of the afternoon were: apron table, $65.27; food table, $45.25; grab, $14.00; candy table, $13.01; flowers, $4.20; miscellaneous, $5.45; total, $147.18.

Mrs. Mary Gammon 14 Beal St. Norway says, "I have kept Doan's Kidney Pills on hand for years, in fact, ever since I first took them nearly ten years ago. The symptoms I noticed at that time indicated kidney complaint. There was a dull, heavy ache across the small of my back and often attacks of dizziness came over me. Doan's Kidney Pills which I got from Frank Kimball's Drug Store, proved fine in relieving me of those troubles. I take Doan's off and on now and couldn't wish for anything better to keep my kidneys in good condition."

LOVELL

Local Red Cross News

The Lovell Branch of the Southern Oxford County Chapter of the American Red Cross has, thus far, sent off a box every month to supply headquarters.

The last box, the seventh in number, contained 18 sweaters, 60 pairs socks, 20 pairs wristlets, 3 helmets, 2 knitted bandages, 10 hospital shirts, and 2 layettes for Belgian refugee babies. There are few women in Lovell who are not doing their "bit" and the workers have received a letter from Red Cross headquarters complimenting them on the articles they have sent.

A large crew of men are at work running the logs down Kezar River and the pitch of water so far has been very favorable.

W. S. Fox and F. L. Meserve of Fryeburg have taken two large jobs of logging pine timber, one at East Fryeburg and the other at Limerick.

Steps have been taken toward the formation of a new telephone company to take over the property of the West Oxford, Independent, and Lovell companies. Benjamin Russell and W. S. Fox were at Fryeburg Thursday to meet representatives of the other interests. As these lines run parallell, it is thought that the change may make the service more efficient and economical.

The selectmen have been around looking up the property of all that dwell within the limits of the town of Lovell. The next thing to do is to pay the tax. Some will kick, but when we go to town meeting and vote to raise money we must expect and should be willing to pay what is set against our names. Then if we are not satisfied when next March meeting comes along we should vote to raise less money. If we can see where we can cut down expenses without hurting our schools, highways or the business of the town.

Henry Gordon of Sweden was in the village last week. Mr. Gordon is just the same as he was twenty years ago. He has a good story to tell and a pleasant word for all. He has a fine farm and raises some of the best sweet corn that is carried to the shop.

In these days when to get flour we are obliged to buy the same number of pounds of substitute, (which we are all willing to do if it will help to can the kaiser) brings to my mind the story of the old lady that had a flock of hens and the price of grain was so high she put sawdust into their feed. They ate it all right so she kept putting in more until they were eating half sawdust and were doing well. At last she had a hen that wanted to set. She put a dozen eggs under her and waited thinking of the dollars she was saved on the feed. But she was shocked when the hen hatched out her brood for there was one woodpecker and four chickens had wooden legs.

Edd Berry has lost a horse and has a cow very sick. They think that there might have been poison in the grain. The one that put it there will perhaps get the iron cross if the kaiser knows of it.

THE SPORT OF KILLING MEN

Far off in France the smoke clouds rise
As the cannons thunder when
We go to join in the greatest game—
In the sport of killing men.

Here is no place for gentle thoughts,
No room for humane things;
But blood and blows and sudden death—
The trump cards of the Kings,

Dealt out to us who bear our share
In the muddle of right and wrong,
Yet thrill with joy at the battle-cry,
Though few against the strong!

With sword and song we join the host,
Thin-spread in the fighting ranks,
To lend a hand in the desperate work
And follow the clanking tanks

Across the fields where flowers grow
And lowing kine once fed—
With steel and flame we do our bit
To multiply the dead!

The dead alone who count in war
As stakes in the royal play,
Once men like us with hearts and souls
Now spurned and cast away!

So face the game with the best to match
As the cannons thunder when
We charge and fall at the trumpet's call
In the sport of killing men!

HISTORY OF MILLETTVILLE BRIDGE

In the town of Norway there is a bridge,
On the road from Millettville to Crockett Ridge.
And every spring it is full to the brimb
And the traveling public have to "sink or swim."

A few years ago, the town raised the sum
Of five hundred dollars of the tax payers' mon',
On fixing that bridge the selectmen were bent,
If they laid out that money to the very last cent.

The road commissioner said his luck he would try
To fix that bridge so 'twould be high and dry.
So he tested the mud to see if 'twas deep,
And by actual measure it was forty-five feet.

The job looked gigantic, but he said with a sigh,
"I'll tackle the thing and never say die."
So he hauled loads of stone from all over creation,
Dumped them into the hole to make a solid foundation.

Then he spread on gravel, which took many a load,
To cover the stone and make it look like a road.
And when it was finished and he thought he could trust her,
He resigned his commission and fled to Augusta.

Now gravity has a few laws of her own
And they work out regardless of sand or of stone.
"The heavier the load, the quicker it will sink,"
So Millettville bridge is still under the drink.

PLAN FOR THE GARDEN

This country has made some very successful "drives" during the past year. There have been the two Liberty Loan drives, the Red Cross drive, the Y. M. C. A. drive, and others. But greatest of all, the 1917 drive for the greatest development of war gardens the world has ever seen. And the success of this drive is still plainly to be seen in the great abundance of canned and dried fruits and vegetables to be found in the homes of the land. There is no doubt that these gardens have played a most important part in our plan of food conservation, and are still effective.

Now again the country is called upon for a record production of food stuffs, an even greater if possible than the last. The success of the garden campaign of last year should spur us to renewed and greater efforts this year. There should not be an idle garden or back yard in the land. Every square foot of ground should be made to yield its quota of the food that is to win the world war.

Now is the time to be planning these gardens. It is not necessary to wait until the time comes for actual planting. When that time arrives every person should have planned the entire summer's program and should know just what every foot of his ground is intended to produce. Fences should be put in thorough repair, the ground should be cleared of all obstructions and nothing but the mechanical working out of matured plans should remain to be done when spring really opens.

One more thought while on this subject: Plan to not let the garden interfere with the larger and greater work each man and woman must do in this year of supreme endeavor. To effect this the garden should be made a means of recreation, and should take the place in a measure of base ball, football, tennis, golf, joy-riding and other amusements and the women will fine renewed health and vigor from a few hours each day spent in gardening.

Then when we have these gardens growing and producing, let us make a wise use of their products, that we may conserve even more meats and wheat for our heroes "over yonder" and our allies who are fighting by their sides. "Garden sass" is an ideal summer diet.

LOCAL PICK UPS

Wanted to buy pigs.

Wonder if there are any.

This paper is silent on the subject.

Shiftless people pound on a piano and call it music.

It is well to live far away from your relatives so you can brag about them.

Foreman Murch, "Bean poles on Deering street is the measure of patriotism and not flag poles."

Wonder the pussy willows are not all exterminated so many are brought into the houses to clutter up and be a nuisance.

Yes, the world was all right before the serpent got into the garden and Eve inveigled Adam to get her a new spring bonnet.

I told Mother that a certain woman was good looking and she said "yes and she knows it, too."

Sent in, "My wife thinks so little of me that I'm surprised she didn't have my name put in the list of alien enemies."

Walter S. Chandler: "The man who works nights always claims that he knows nothing. In which he resembles many a man who works days."

There is a great demand for parlor pigs especially up Pleasant street, where they are fed on ice cream and frosted cake.

Wasteful extravagance: Several two-horse teams with many men working several days carting off snow-ice from Norway's permanent street.

Orrington Cummings wants it to rain so his new shoes won't squeek and too when the snow leaves by the sun he says is a pretty sure sign of a dry season.

No flowers at my funeral, please! Let the box that holds me be as barren as the life I've led—No flowers, please. If its necessary to sing, exhort and pray do it in a modest way—no flowers, please.

Maud Murch has parted with her teeth and looks like a fright. She is much pleased over it. The distance between nose and mouth is so slight she looks like the picture of a popular brand of Salem hosiery.

There was "a dawning of economic consciousness" last Saturday noon when the street ice-shoveling gang ceased their labors and concluded to let the sun finish the job.

Agricultural tongues have commenced wagging and the mails are heavy with printed instructions from Washington. Plant a garden. The long over due free government seeds have got here. Carrot, lettuce, onion, parsnip and squash seeds. Have a package? Come in or send in.

Pret Russell has lost some teeth and begins to look old. No mistake about it. I didn't know him the other day until he began to speak of our school days. Well, that is 45 years ago. And time has left its mark on all that yet survives myself included as well as Ed Burnell, Florence Whitcomb Fuller and others.

Frank Noyes sews buttons on his clothes. I will do no such work. I get Miss York to sew them on because I get the clothes at his store and the buttons are supposed to stay on. But they won't. I go there for repairs pretty often. The other day I was charged ten cents and am now waiting for Frank to return from the South so I can have a talk with him.

A person whose identity is unknown sends copies of the Milwaukee Leader. After reading them I'm convinced the story of Germany loosing all its foreign colonies is a mistake as they certainly have a lively one in that city. That this paper is barred from the second class mailing privilege is gratifying. It should be squelched at least until the war is over or the Huns take possession of this country.

After reading Col. Roosevelt's Portland speech Charlie Vaughan of the Laconia (N. H.) Democrat says: "We gather the impression that the Grand Old Party in the next campaign propose to ask to be restored to power because Woodrow Wilson did not train and equip a larger army during Theodore Roosevelt's administration."

In referring to the daylight-saving scheme he also says: "The attempt to regulate the rising and setting of the sun by legislation is in line with the tendency of modern times and is cheerfully accepted by all patriotic citizens."

A problem in arithmetic respectfully presented to High school scholars and Norway tax payers:

Four two-horse teams with drivers and 12 men with picks and shovels work four and one-half days carting snow-ice from Norway's permanent street—what is the sum total of cost?

Two turns per team per hour for 9 hour day. What was the cost per load?

Each team averaged one-fifth cord to a load. How many cords? What was the total weight in pounds?

Why was it done?

The person giving the best solution can have the Norway Advertiser for four cents a copy for a year.

Somehow I never knew Congressman Ira G. Hersey to do anything that pleased me. I never knew him to make a straight forward manly unpartizan speech in any form or shape.

His late effort advocating a continuance of a 7 hour day for department clerks is no exception. He should quit talking and use his franking privilege only in the distribution of garden seeds. I should think Charles Barnes would tell him so.

Martyr-making of Washington clerks who are required to work more than seven hours out of 24 is ranting idiosy to the average rural mind in this section.

I can't say how it may be viewed in Aroostook County when they have a monopoly on the World's Potato Crop and apparently one on foolish talk in Congress.

The compiler of this column has written a personal reminiscence of a western land investment which will soon appear in this paper. If you have a similar experience send it in and let our readers know about it. Why not tell about it even if you have lost?

HARRISON

Mrs. Ella Chaplin Tolman

Mrs Ella (Chaplin) Tolman of Westbrook, wife of Judge James H. Tolman, died at the Maine General Hospital at Portland, Feb. 27th.

Mrs. Tolman was born in Bridgton March 20, 1854, the daughter of the late Caleb and Abby M. Chaplin, and a great niece of Rev. Jeremiah Chaplin, the founder and first president of Colby College. At the age of twelve years, her parents moved to Harrison where she resided for many years. On Nov. 25, 1877, she was united in marriage to James H. Tolman of Harrison by Rev. L. W. Raymond.

Three children were born to them, May, born October, 1878, who is a teacher in Portland High School, George W., born in 1880 and A. Laura, born 1883.

A few years later they moved to Casco, then to Portland, and in 1892 built their house in Westbrook where they have since resided.

On March 24th, 1918 she submitted to a critical surgical operation, and to all appearances seemed to be gaining, and no change for the worst was noticed till Tuesday at midnight. She failed rapidly and died two hours later, Feb. 27th.

She leaves one grandchild, Laura May Tolman of Schenectady, N. Y. Her passing was doubly hard to the family and relatives, as her oldest daughter was stricken with erysipelas Feb. 26. The father was with her at their Westbrook home, the younger daughter, Laura, with her mother, and the only son, George and family, were on their way from New York.

One Horse Milk Chariot

It has returned to Norway, where it first saw the light of day a little less than thirty years ago. H. P. Sawyer was designer and maker. The late Geo. W. Hobbs used it to convey milk from his farm on Pike Hill to customers in the village. It was dark red of color and was drawn by a sorrel horse.

Charles A. Pride of Cottage street got it and for 18 years successfully operated it, laying the foundation for financial ease and comfort in his declining days.

Ira Harriman of Crystal Spring Farm fame took it and added to wealth and prosperity.

Messrs. Poole & Lapham of Richville, Oxford, were next the owners and it stayed with them until they quit the milk business.

Mrs. Marilla M. Ricker, who once stopped over night in Norway, and has relatives in this section, has this to say of the Great Noise, Trouble Maker and Discoverer of Lost Rivers:

"I, Me and Myself," otherwise Ananias Teddy, is to be here this week, he evidently thinks he has the Republican Party by the "scuff of the neck," but I'll bet good money he hasn't.

I saw Senator Overman of North Carolina was looking after him a bit, he declared that Teddy had made a false statement but Lodge of Massachusetts and Borah of Idaho came to the rescue of Ananias by saying that Teddy had been misinformed.

I was glad to see that Overman said that he should make an apology to the Public and correct his statement. "Teddy the Great I Am" makes no apologies, he can make no mistakes it is "Me and God" and "Me and God" can make no mistakes.

OLD BILL SAYS

This war is going to prove a blessing to a lot of people, it is going to show them that corn, wheat, beans and potatoes are a value and that automobiles are a liability.

Twenty years ago I had two neighbors, I have them now. One started with a pair of calves, the other started with a nice pair of horses. Now my calf neighbor has a fine place, a good herd and money that he is trying to find a place for without putting it in life insurance. My horse neighbor is sitting on the barnyard fence looking at a mess of buckles and straps that once were a nice pair of harnesses; the fine horses have gone to greener fields and pastures new and he is trying to borrow money to buy a new pair—some folks can't learn.

I saw an item in the Post letter box, it read, "How many eyes should I have on a piece of potato to plant and how deep should it be covered? Helping Hoover. The answer was, many good farmers cut the potato with 2 eyes on a piece, drop 3 or four pieces in a hill, cover with four inches of soil. Now think of it, if you want so many eyes why cut the potato at all, then if you have six or eight stalks in one hill it will take a lot of manure to feed the stalks and the ground will be so rich what potatoes grown will rot. To put four inches of soil on them they would be like an angle worm with mustard on his tail, they would go down instead of coming up. Is it any wonder so much good seed is wasted when people are told to plant it in such shape.

"Old Bill," Stow, Me.

BOYS GIVEN CREDIT

Can the boy who works on his father's farm this year get credit as a member of the United States Boys' Working reserve? At the headquarters of the Maine Division of the Reserve, letters are arriving in nearly every mail requesting an answer to that question. The officers of the Maine Division say that these letters show a gratifying spirit of patriotism on the part of the boys who write them. Boys who will work on the farms owned and operated by their fathers naturally desire to receive proper credit for the work they will do in raising the war-time crops. They are going to serve in the army which fight for freedom by waging battle in the furrows of the fields as other armies are fighting in the trenches. The anxiety that these youngsters show as to their standing is one of the hopeful signs of the times. They make it clear that they look upon the work they will do as a patriotic service.

The answers that go out in response to the letters of inquiry set the minds of the young patriots at rest. The boys working on their father's farms may become members of the reserve. But they must be regularly enrolled at the first of the season. They must fill out the enrollment card which may be obtained from the Superintendent of schools, the Principal of the High school or some other recruiting agent. The boys must be prepared to show at the end of the season that they have actually worked for a period of at least six weeks.

What is said here as to boys who remain on the home farms applies with one exception to boys who enroll to work in other industries without leaving their homes. These boys, in order to obtain badges, must show that they have worked for a period of at least ten weeks. Uncle Sam wants the help of all the boys and arrangements have been made to give the boy who cannot leave home his chance with the boy who can.

The boy who volunteers for work wherever the Reserve may send him within the State gets some things which cannot be provided for the boy who enrolls to work at home. The Volunteer is given the benefit of preliminary instruction in the training camp at Winthrop. His course there includes not only instruction in the work he will do, but he gets a taste of military drill under an army officer. He receives a uniform. It is stipulated when he is placed on a farm that he shall receive fair wages for the work that he does there. If he is one of a group of boys working in the same neighborhood he may live in a camp all summer. Whether he does or not he is constantly under the guidance of a man selected as a Director because of his fitness for the task. Uncle Sam intends to give all the boys a chance to help win the war, but the boys who volunteer for service wherever needed because of the very nature of the case that there has fallen to their especial lot, some things that make a strong appeal to them.

THE NEW IDEALS

The love of health rather than the dread of disease is rapidly becoming the ideal of public health workers. This new ideal will affect the health and efficiency of men, women and children everywhere. In a recent article in the Journal of the American Medical Association, Dr. W. S. Rankin, says that "the new ideal of health is qualitative, making for greater human efficiency and a better quality of being, rather than fighting disease in order to reduce the death rate. In short, it seeks health for the happiness, contentment and moral gain that it brings rather than because of the miseries that follow sooner or later in the wake of ill-health."

YOUR LIVER NEEDS

Stirring Up and Stimulating in the Spring.

Its sluggish lack of vigor is a large factor in causing the dullness, depression and weakness that hang on to you like lead in your shoes from morning till night.

Hood's Pills are the best liver stimulant and family cathartic,—best because they do their work well and do not deplete the blood like purgative salts and waters, which often leave a woful train of catarrhal discharges that are unnatural and weakening.

Then you may get the splendid blood-enriching qualities of Hood's Sarsaparilla and the iron-building effects of Peptiron into the combination, and the three medicines working together give the grandest health-uplift it is possible to have from medicine.

Any one of the three medicines will do you good—the use of all three will accomplish wonderful results for you. Try this fine course of treatment this Spring.

ALBANY

One Man's View of the Road

Our mail carrier comes as far as Hunt's Corner on wheels, but cannot go way through on his mail route at this writing for the big snow drifts have not been shovelled out yet.

They never ought to be shovelled out again after this spring, for we are hoping our board of selectmen will lay out a new road between Hunt's Corner and Charles McAllister's before next fall, down in the valley so to lose two big hills and so much shoveling snow in the winter-time.

It will cost our town over $300.00 to keep the road in good shape for the last year, whereas, it ought not to cost over $100 if the road was built down in the valley where it ought to have been built. The next year after our new mail route was established about 15 years ago. It has cost our town $4,500 in the last 15 years to keep the road in good repair, which has been an extra expense of $3,000 to our town. Of course it will cost something to build the road, but the extra cost would all be saved in two or three years. Then we should have a good road over to the cemetery from the Corner, where autos could travel.

Last June when Guy Dexter Cummings was buried, all those that came to the funeral with autos had to leave their autos at the Corner and hire teams to go up the steep hills to get to the cemetery and sometimes the mail carrier finds it a difficult job to climb the hill with his auto after a big rain with only himself in the auto.

The ladies' circle was held at the church vestry Friday, March 30. The next circle will be the first Friday in May.

Herman Cummings and W. I. Beckler have got through their job in the woods and are at home.

Archie Bass and Lester Allen have gone to Crystal, N. H., to work.

James Gould has been helping H. I. Bean cut wood a few days.

The scholars of Gould's Academy have returned to the school at Bethel after being at home two weeks.

Don't delay, buy today, Liberty bonds at any bank.

J. P. Kimball of Stark, N. H., called on D. A. Cummings last week. He was formerly of North Albany, the son of Charles Kimball.

Roy Wardwell is up to the Corner with his machine sawing wood. Bernard Allen is helping.

Mrs. W. I. Beckler was visiting at the corner a few days ago. She and Mr. Beckler have been at work up in Shelbourne, N. H. the past winter.

HARTFORD.

Mrs. Olive Brown, wife of Edwin Brown, still remains at the hospital in Lewiston although it is thought her condition is improved.

Aloscoe Bryant has returned from Florida and is ill from the effects of a second shock paralyzing one side of his body. He is at the home of his niece, Mrs. Gibbs of Livermore.

Mr. and Mrs. E. F. Bryant have been spending a few days with Mr. and Mrs. Gibbs, assisting in the care of his brother, Aloscoe Bryant.

Mrs. Ida Mitchell of Auburn has been visiting at the home of Win Mitchell for a few days.

Union School commenced Monday with Alma Holbrook as teacher.

The pastor of the M. E. Church, Rev. I. C. Thorne and wife, are attending the Maine Conference which meets at Augusta this week. There will be no service April 14th.

A number in this town have been busy making maple syrup the past two weeks.

Leon Berry and family moved this week from their home in East Hartford to the town farm which he will take charge of, and farmers of East Hartford are carrying their own cream for the present.

Harland Berry has been home on a short furlough and returned to his company.

EAST FRYEBURG

A. E. Cole of Bridgton Valley and James Chandler of Lovell have been building an addition on D. P. Lord's store, which he will use to live in while Reginald Hawkins' family occupy his house.

Frank Meserve of Fryeburg has taken the logging job for the portable mill on the Henry Lord farm and will soon move into the house there.

John J. Pike is in very poor health.

Freeman Thompson finished sawing on the Quincy place this week and has several jobs in view, but hasn't decided yet where he will go.

NORWAY AND VICINITY.

G. Ralph Harriman has on display at Stone's drug store carrots and parsnips raised in his "bog garden" on Pleasant street last summer. He planted a war garden on the banks of Tannery brook in a spot "fit only for a frog farm" as many experienced planters remarked. In spite of environment and bad weather, the garden flourished, bringing to maturity a good crop of vegetables.

Hose Co. No. 3 held their first meeting for the year at the hose house Thursday evening. The following officers were chosen:

Captain—Edward F. Blake.
First Asst.—Charles H. Pike.
Second Asst.—Clifford Frost.
Clerk—Edward L. Burnell.
Hydrant Man—Horace H. Cole.

A coat of yellow and red paint has been applied to the front of Drake's Spot Cash Store in Ward 8. J. S. Witham did the work. A general clean-up campaign has started in that district and this is the beginning of many improvements contemplated by the residents about "the square."

Francis Chick and Harold Drake, both active in the Boy Scouts, recently launched a boat of their own construction and are busy trapping muskrats in the bog from the falls to Greenleaf Avenue bridge.

Tim Heath tapped two small maples on Main street and has secured nearly three quarts of fine syrup. Ned Burnell has also been gathering sap from several shade maples and can claim a generous syrup supply. Others in the village are doing the same on a small scale and evaporating the sap without extra expense while cooking or baking is being done on the kitchen range. Prof. George A. Yeaton's campaign to conserve sugar for canning is bearing fruit especially through the rural districts as many maple orchards are in full operation which have not been tapped for years.

Donald B. Partridge has recovered from his recent illness and is able to walk about town, although his usual strength has not returned.

A new camp has replaced the one recently burned which was occupied by Geo. Tripp, located opposite Pine street near Herbert Rich property. Several neighbors, led by Harry Lovejoy, procured the necessary lumber and formed a building crew who completed the new quarters in a few hours.

Joe Dubey, employed on the highway, found a live toad in the mud while cleaning out the catch basins on Main street. Joe says "the proper way to clean the cement street is the dry sweeping method done at night when the dust will not prove so offensive. Also it must be done before the streets are heavily sprinkled." This is the way they do it in cities where he has resided.

Milo McAllister of East Stoneham, Joseph F. Lafrance of Norway and William Barrett of Portland in Medical Dept. at Camp Wardsworth, Spartansburg, S. C., have been appointed sergeants.

The first anniversary of the United States entrance in to the war and the opening of the third Liberty Loan drive occurred Saturday, April 6. Flags were displayed from public buildings, stores and residences with several well arranged window displays by the Main street merchants. The Loan committee canvassed the town with door knob advertising.

The Atchison Globe: "It will have to be admitted that the kaiser is clever. Without the use of an army he has captured Milwaukee."

True Morrill proudly says he has got a new suit and is to send his over coat to the Belgian Relief committee. Wonder what he'll do when winter comes.

Clarence W. Merrill has been in Bath on a visit and looking over a proposition at the ship yards.

Harry Rust W. R. C.

Harry Rust No. 45 W. R. C. met in regular session, Thursday evening, with President Jennie Richardson in the chair. There was a full attendance and an interesting meeting. Three candidates were received into membership. Clara M. Elliott, Secretary; Edith S. Bartlett, Patriotic Instructor, and Addie C Buswell, Chaplain, were installed by the President, these officers not being able to attend at the annual installation. It was voted to open the meetings at 8 o'clock during the summer, commencing at the next meeting. The flag which has been on the hall during the winter, and had become faded and battered was removed the past week, which would have been done earlier had it been possible, but owing to the deep snow on the roof, and ice in the pulley, it was necessarily delayed. The Patriotic Instructor conducted the ceremony of burning the old flag.

An appeal was made to all members to devote every minute possible to helping in the Red Cross rooms, as the call for surgical dressings at this time is tremendous.

By a vote of the Corps a box of dainties was sent to Linwood E. Fogg, son of Mrs. Eva L. Fogg, a Corps member, who is recovering from a severe attack of pneumonia at Camp MacArthur, Waco, Texas. A letter was received from him stating that the box reached him in fine condition, and the contents much enjoyed by himself and other patients in the hospital.

Following the business session a buffet lunch was served in charge of Clara Ethridge, Annie Frost and Berenice Nash.

The next meeting will be followed by an old fashioned social. Every member is expected to appear in costume or pay a fine.

Enjoyed a Sugar Outing

A jolly party of scholars from the grades accepted Mabel Perry's invitation to an outing at the Perry homestead at Norway Lake Saturday. The company hiked the distance although the roads were in bad condition. Base ball and other games were in order, but maple syrup making proved a great novelty as but few had ever witnessed a sap boiling outfit in operation. Each carried a lunch and Mrs. Fred Perry set a spread which included baked beans, salad, hot rolls and maple syrup. The party returned before dark after spending one of their pleasantest days in the open air with the hostess a splendid entertainer. Among those who attended were Mary F. Dresser, Susie Bradbury, Doris Cummings, Lena Andrews, Myra Gammon, Dorothy Newcomb, Addie Longley, Dorothy Chandler, Carl Perry, Houghton Kimball, Clarence Dyer, William Lewis, Roland Andrews, Percy Nevers, Jr., Benjamin Tucker, Carroll DeCoster.

Everett McKay went to the C. M. G. Hospital at Lewiston Thursday, accompanied by his sister, Mrs. Albert McCready, where he underwent an operation for appendicitis. In the process of the operation it was found he was suffering from an internal breach. He is getting along well.

There is talk of forming a Tent of Daughters of Veterans. Daughters and granddaughters are eligible.

On account of the death of John P. Cullinan Mt. Hope Rebekah lodge postponed the social for Friday.

The Y. P. C. U. of the Universalist church held a social at Concert hall, Thursday evening. The attendance was good. There were twelve tables at various games. Some over $16 was cleared.

Margaret A. and Jennie P. Baker pleasantly entertained five tables at progressive whist Thursday evening. Mrs. Fred Moffatt of Dorchester, Mass., and Mrs. Hal Eaton of Bangor, were the guests of honor.

Mrs. Rebecca T. Daboll goes to Boston the first of the week for a week or ten days' stay.

Mrs. Susan Nason of South Paris has been a guest this week of Mrs. Will Rice.

Frank Herrick, who has been making shoes in Hallowell during the winter, is in town for a vacation of two weeks. He will return to the McKay lasting job as business in that place will be rushing within a short time.

Geneiver Fogg of Skowhegan and nephew, Francis Beliveau of Lewiston were the guests of Mrs. Alfred Everett and family from Thursday until Saturday of last week.

Hugh McKay has returned from Massachusetts where he spent the winter with relatives. He arrived from Lynn after a visit of several weeks with his son, Edward J. McKay.

Harry B. Holden and wife of South Paris were Sunday guests at A. A. Everett's.

Mrs. Jack Ariel and daughter Elizabeth went to Durham Monday because of the serious illness of Mrs. Ariel's father.

Mrs. William Stone has been on the sick list and suffering from a severe cold.

Mrs. Eunice Watson, who has been staying with her sister, Mrs. George Ames during the winter, is with her daughter, Mrs. Will Tucker, at Norway Lake and will remain as long as her health permits.

Mr. and Mrs. Fred Gurney of Hebron and Myrtle Scothorne were guests of Mr. and Mrs. Archie Gurney, Friday.

R. H. Bethell: "I had the good fortune of seeing the parade yesterday. The tank certainly is a great specimen of mechanical gymnastics, it has a speed of about 6 miles per hour, almost equalling Nate Noble's record with his one lung threshing machine in speed and noise. It shook the buildings very much. I was on the third story of one building when it went by and it jarred the whole building. The tank looks as if it might be a mighty persuasive argument in a battle.

Mrs. Mary E. Pike, who has been in the C. M. G. Hospital for an operation, has so far recovered that she has been removed to her sister's, Mrs. Alice Neal's, 45 Jefferson St., Auburn. After she is fully recovered, she will go to Quebec, P. Q., to live with her daughter, Mrs. H. F. Fogg.

For the sake of liberty and humanity buy a Liberty bond.

S. J. Record and Frank J. Cook attended the state meeting of the Horseshoers' Association at Waterville this week.

Irving Merrill, engineer at the Paris Manufacturing Co., has moved his family to South Paris and is occupying the new bungalow on Nichols street. He has resided on Alpine street near the branch crossing for several years.

Sneak thieves have opened the summer drive. At least two families on Main street have suffered from their visits in the loss of smoked hams. These were hanging on a porch and in one instance up one flight. Dogs were at first charged with the thefts, but careful investigation of circumstances disproves this theory. Woe be to the party who returns for a second helping.

Teacher Training Course

Sunday evening at the Methodist church was held the graduation of the year and a half study of the S. S. teacher training clas. Of the twelve who started in with the work only five finished the course. The papers presented by the class were very excellent and interesting and are as follows:

Bible History.....Edith Gardner
Bible Geography?.....Mrs. Laura McKeen
The S. S. Pupil.....Mrs. Minnie I. Curtis
The S. S. Teacher.....Mrs. Olive Grundy
S. S. Institution.....Nettie Swan
Presentation of Diplomas..Rev. L. W. Grundy

Miss Swan has been away in Greenwood all winter and could not meet with the class very often, but she kept up her study alone and passed all her examinations, but was not sure that she could be present at the graduation until the minute and too late to prepare her paper so Mr. Grundy gave a very interesting history of the founding of the Graded S. S. lessons, their progress and outcome which covered what might have been her paper, closing with the duty of every parent to his child to a better knowledge of the Bible and right living the foundation to better citizens.

Charles E. Bane of Rumford has bought the farm recently owned by the Finnish minister, better known as the Charles Bacon place on the Greenwood road about a mile from the village. Mr. Bane expects to move here in a week or two. Mrs. Bane is an older sister of Mrs. E. D. Curtis. Their son Earle, has been here for the past two years attending school.

Dr. I. W. Staples is having some inside remodeling and repairing done to his house. A double door put in between the sitting room and dining room, a door cut into the hall from his office, the office enlarged and a bath room adjoining, also some chimney repairing. Mrs. Staples' uncle from Portland is doing the carpenter work.

Rev. D. A. Ball, who came from Augusta to attend the funeral of little Geneva H. Mann last week, called on some of his old friends while here.

The W. C. T. U. held its annual meeting at the home of the president, Mrs. L. C. Bates, Thursday. Good reports were given of the year's work considering the few workers.

Benj. R. Billings of Bryant's Pond, Mrs. Emma H. Mann, W. M. Mann of Norway and Mrs. Harrington Mann of South Paris were here last week to attend the funeral of little Geneva H. Mann.

Friday afternoon was the close of the winter term of the High school and a few visitors went in to hear their program, which was very interesting. Essays had been written on the war song and Thrift Stamps by all. The teacher, Miss Wall, had chosen six best ones from the Freshman class and three from each of the other classes to be read before the whole school. They were very original and interesting. Some gave theirs with only a few notes and some in dialogue. The primary and intermediate rooms were invited in and sang two choruses. Laura Emery gave a reading, Marjorie McAlister a solo and Edith Stevens a piano solo.

Universalist Parish Meeting

The Universalist parish meeting held March 23, was a successful and interesting one. The annual supper was the first enjoyable feature, about fifty being present. The reports of parish, Good Will and Sunday school all showed excellent financial conditions. Five new members joined the parish. The matters of securing a pastor was left in the hands of the trustees, but a rising vote of appreciation was given to Rev. H. A. Markley and there is a hope that later he may be secured. The following officers were chosen:

Moderator—Clarence L. Ridlon.
Clerk—Abner H. Mann.
Treas.—Lewis C. Bates.
Trustees—L. C. Bates, E. D. Stilwell, C F. Barden.
Chorister—Delia H. Lane.
S. S. Com.—Ruth Tucker, Mrs. L. M. Mann, Minnie Lane.
Delegates to State Convention in June—Delia H. Lane, Clara Bacon, Harold Perham.
Alternates—Ruth Tucker, Laura Barden, Mrs. Mildred P. Davis, E. J. Mann.

Rev. L. W. Grundy to Leave

Rev. Leslie W. Grundy finished his second conference year Sunday and he and Mrs. Grundy and their baby son left on Monday morning for their home in Skowhegan. Mr. Grundy will attend the Methodist State Conference at Augusta beginning the middle of this week. He expects to receive an appointment elsewhere for the coming year. Mr. and Mrs. Grundy ere exemplary young christian people, enthusiastic and helpful. They leave only with the best of wishes from their many friends not only here but from North Paris and Greenwood, where he has also ministered unto the people in connection with this church. For the past three months since the Baptists closed their church he has been doing double work. Now the Federation is coming on between the two denominations and a man by the name of Rev. H. H. Hathaway from Clinton is coming next Sunday, April 14, sent by the agreement of the M. E. Dist. Supt. Holt ad Baptist State Sec. Hamlin to supply these churches.

Mr. and Mrs. Adney R. Tuell were in Lewiston last week to attend the funeral of their son's wife, Mrs. William A. Tuell.

C. L. Ridlon, C. H. Lane, Jr., F. R. Penley, William C. Stearns and Richard Gates were delegates to the Republican convention at Portland a week or two ago. E. J. Mann also attended.

Mabel E. Ricker recently received a letter from Mrs. Charles Bates of Zephyrhills, Florida, saying that she and Mr. Bates expected to start for Maine about the middle of April. Mr. and Mrs. Bates went to Florida three or four years ago. Mr. Bates was here on a few weeks' visit last summer, but she has not been back since they went away.

Mrs. Harry Williamson and daughter, Phyllis Esther of Sunday River, recently visited her grandparents, Mr. and Mrs. A. R. Tuell, Mrs. Agnes Swett and son of Newry accompanied them.
